

Anime Punch Armageddicon 3

The beginning of what would later to have been to come

Anime Punch Rides Again!

The anime con for fans who watch anime returns, and this year we're even more into it than ever! For those who have not heard the legends, The Armageddicon strives to be a "college-level" anime convention. To define, we have passion, we debate, we have discourse, we tell you WHY we like what we like, we study, we read secondary literature, we freeze frame scenes again and again, we know the directors names, and we don't just talk, we also listen, and we also LEARN; then after the sun sets we PARTY like we aren't going to live to see it rise! Anime Punch is known for having the most academic panels, the best music, and the most degenerate events! So if you LOVE anime, you want to learn, and you want to have an incredible time, this is your place!
